Title:

Comments: Approving this development would be a travesty. Holland Lake is a rustic gem, beloved by those who have spent time there. It should not be developed and essentially reserved for wealthy patrons to enjoy, by virtue of what it will cost to enjoy it once the proposed amenities are developed. It should retain its original rustic and simple accommodations, which put it within reach of ordinary Montanans who deserve access to these historically beautiful and quintessentially Montana places. Please, stop the development of our resources for the enjoyment of a few, and preserve our natural resources and beauty for everyone in the public to enjoy. Thank you!
