Comments: Montana is a place where we take pride in our history and heritage. From our grandparents teaching us how to hunt, fish, and trap. Most of us would go on "drives" when we were younger with our parents and go discover some new country or a new town. Yes "out of staters" are bringing in new money that Montana has never seen before and improving some things that has been on the back burner. But tearing down old historical buildings to make a new whitefish should be unacceptable and we all need to say no! Keep Montana old, keep Montana wild, and keep Montana strong
