Comments: I really hate the exploitation and resort-ification of Montana. We have Paws Up, we have the Ranch at Rock Creek, we have the entire cities of Whitefish and Bozeman for that. Turning our local spots into paved over, crowded resorts for rich out of staters incenses us, and this development exceeds the local social carrying capacity (our willingness to put up with) another development from an out of state company that has no stake in disrupting our lives. Please do not allow developments like this one to uproot rural Montana.
