Comments: Holland lake is one of Montana's most beautiful settings. This area is meant for families to camp, hike, swim & recreate. The current lodge is just fine for a small event or wedding, but anything bigger is not needed. It's the woods, there are tons of species of animals that would be disrupted by a big lodge, buildings, & parking going into this beautiful area. MT locals want to be able to afford places like Holland to camp & that's what Montana residents do..they use tent & campers. No one wants a money hungry fancy lodge or cabins to take away from this place.
