Comments: I want to say that this truly disappoints me because the beauty of Montana is that it is one of the last highly developed states in the country and that's why I choose to visit Montana in the first place. I can say that I have a timeshare or my family has a timeshare nearby this lake in for the last two years we have really enjoyed going to Holland Lake. this is because it is very under developed and that's why it seems like the place that we want to go so to talk about turning it into a way bigger development it seems very an intriguing to me and more of a an environment that I'm trying to escape from On my vacation that I only get so many per year so please do not allow this to go through because it's going to alter where I decide to go to I don't know if Alaska is the only place left??
