Comments: In this day and age with so many Americans struggling financially it is a travesty that an affordable, beautiful gem like Holland Lake Lodge may be replaced with an underserved overly expensive resort. PLEASE do not increase the footprint of Holland Lake Lodge. Part of it's charm is it's rustic nature, it's historic simplicity and preservation of nature. Please do not erase the beauty and the history. Part of what makes Montana so great is it's rugged, gorgeous country vibe.

A new costly resort will negatively impact the surrounding infrastructure. Any large scale project demands more roads, waste management, water and sewer overhauls, greater electrical loads, etc. PLEASE do not build new structures. If people want a deluxe resort there are hundreds of others places they can go. PLEASE do not expand. Upgrade existing rooms? Sure! Offer paddleboard rentals on the lake? Excellent. Replace the lodge and cabins with some new behemoth? Hard pass. Thanks for your consideration.
