Comments: Enough with destroying historical buildings! You want to make money fine!! Restore those historical buildings and rent those out. Make it about an adventure in the past. And make it a true rustic adventure. But stop trying to change Montana to make money. It's not working. All you are doing is ruining to beauty of our state and ticking off the people who live here.

The suggestion I gave, keeps the beauty, makes you money and provides your clients with a vacation they won't forget and a way to escape. It's a great compromise and will probably save you money.
