Comments: I absolutely do not agree with this! Why ruin a beautiful thing with wealthy greed? Montana is already being ruined by the influx of people with money pricing out the locals. There is no need for such land ruining just for wealthy people. And to tear down historic buildings... absolutely disgusting. This world is being ruined by greedy people. Montana is peaceful, this area is peaceful and now people want to ruin it with lodges and parking lots. Places are being ruined by you for financial greed. Stay in Utah, you've already ruined that state enough.
