Comments: Please do not sell off holland lake. There is history there that is important to generations of Montanans. Too much of our land is disappearing to developers. Montana is one of the last place for free Recreation and being able to go on hike and trails is why we all live here. Please do not take this away for money. It doesn't just hurt Montana natives but also the wildlife that lives there, people are taking too much land away from animals, some of this is bound to happen but please not this area.
