Comments: There's no denying that Holland lake provides the quintessential dream for any developer. The very thing that makes Holland lake so special is the remote, untouched beauty that quietly astonishes every single visitor, leaving a lasting impression of its magnificence. Families, friends and lovers have enriched their lives with time spent on the crystal water of this quaint and pristine lake. The Holland lake lodge sits as if undiscovered but in reality, it is the seat of cherished memories that so many people hold dear. I was the flower girl to my aunt's wedding in 1986 on the lawn outside the lodge; 31 years later I was married on that same lawn. My father's family spent summers at Holland lake from the 1950's on. Our family's history is anchored by the memories shared on Holland lake's shore.

I understand the desire to take advantage of such a beautiful place, but in so doing- especially with such an ambitious and, arguably, damaging development project - you'll be destroying the very essence of what makes this place so special. This project only serves big money and the interests of the developer while betraying the heart and soul of Holland Lake. BE A RIGHTEOUS CUSTODIAN OF MONTANA:DO NOT SUPPORT THIS DEVELOPMENT PROJECT.
