Comments: I learned about the exploitation of Holland Lake through a friend. I am a native Montanan and seeing the exploration of our beautiful land for people that don't care about actually being IN Montana. One of the incredible parts of being in Montana is being to enjoy the natural landscape and finding peace in nature.

Destroying Holland Lake and all of the areas surrounding it merely to bring in a tourist trap is a crime, it is definitely not an "improvement" as stated at the top of this page. I sincerely hope that the Forest Service will listen to the pleas of local Montanans, and strongly oppose this project! We love our land and want to keep it as sacred and beautiful as we can. Protect Montana resources!
