Title:

Comments: I was born and raised in Montana. Four generations of my family are from Montana and my children are the 5th generation. Too many big corporations have ruined areas of Montana to make resort areas which actually force those of us that use forest service land to hike and leave the area with "no footprint". Glacier Park, Whitefish Mountain are examples of how it is impossible to enjoy our own home. Please do not allow this to happen. There have been no environmental impact studies and we are already seeing animals pushed out because resorts bring in tourists and animals are searching for food and get hit on our road ways. The fiber optics alone to bring a modern convenience to a wild area should be the biggest red flag.

Sincerely,

Lindsey
