Comments: Holland lake has been a quiet get away for all those near and far and while I enjoy out of staters enjoying our state it is our state. This massive expansion only serves to further destroy the peace and quiet that we enjoy at Holland Lake. Many of our lakes already have been ruined from out of state leaches looking for a quick buck, please do not let Holland lake fall victim as well. Montana is a great state for the fact it does not have any high society type attractions. Let them further infest flathead and leave Holland alone.
