Comments: My family and I have been going to Holland Lake for well over 40 years. It is a beautiful secluded lake that people can enjoy without all the crowds and large boats. It's a place to get away and make memories with friends and family. It's where kids can be kids and not be tied to video games or cell phones. It's where they take their kids when they become parents. Please don't take this beautiful lake away from all who have enjoyed and all those to come that will enjoy it.
