Comments: Please don't allow this to happen. I understand that tourism is important to our state, but this project doesn't seem like something that will foster the spirit and communities that make up Montana, but instead will simply transplant out of state ideals into Montana. We already have people moving here expecting to change housing markets, politics, and other things that make Montana what it is, you have a chance for some responsible husbandry to keep Montana the beautiful and wild country that it is without selling out to the highest bidder. Our state should not be for sale, and someone who's coming in for a weekend getaway from out of state will not understand preserving our resources and values in a way that fosters preserving our wild spaces for overall public enjoyment. As it is it seems that they'll "pave paradise and put up a parking lot" to quote the song.
