First name: Margaret

Last name: hammersla

Organization:

Title:

Comments: The uniqueness of these spaces is that there is still a feeling of being able to connect to nature. Away from the crowded spaces close to town. The space is open to EVERYONE. But especially those that live here. Visitors are always welcome to make their way up and enjoy the space just like locals. But building a lodge in the ways of Park City and other high end lodging takes away the very essence that makes this lake special
