Title:

Comments: This is one beautiful place we have left, I can safely I, freely take my kids to hike and we look forward to it multiple times a year. Please don't take it away. I know there are tons of environmental concerns here but the joy we get from the very few places we have like this is important too. Please don't let them take it away.

"They paved paradise, and put up a parking lot".

I wouldn't and at some points couldn't afford to enjoy this nature and care for it with the cost it would be to enjoy all the amenities of a resort. Let us keep our nature Please.
