Title:

Comments: Please do not allow this to happe . Holland lake is in the edge of the pristine preserved Bob Marshal wilderness. Holland lake and the current old structures are history of Montana and I was lucky e Pugh to fish on this property as a young child. The Sean valley is not ready nor do the people who chose to dwell off the grid deserve to be exploited this way. The swan is backwoods folk, id be scared for what they could retaliate with yuppies start driving their backroads. Leave Holland lake alone!
