Title:

Comments: Please do not allow this to happen. Holland lake is in the edge of the pristine preserved Bob Marshall wilderness. Holland lake and the current old structures are history of Montana and I was lucky to fish on this property as a young child. The Swan valley is not ready nor do the people who chose to dwell off the grid deserve to be exploited this way. The Swan is backwoods folk, they'd be scared for what they could retaliate with if yuppies start driving their backroads. Leave Holland lake alone!
