Comments: I am a 3rd Generation of campers up at Holland Lake. When the current owner's parents leased the Lodge, they welcomed the public with open arms. People could come grab some dinner, or a drink at the bar. My younger brother and I would go and play pool and drink shirly temples. Montana is referred to as the Last Best Place for a reason. With this being a Forest Service Lease, the land is owned by the people of Montana. The Lodge also doesn't "own" the lake and shoreline. I was flyfishing from the high water line and was informed by Christian that he was going to Tresspass me from the property. Im an avid Montana hunter and fisherman and know my rights to the land. Christian has ran out all of the locals trying to gain an extra money by privatizing everything. I strongly OPPOSE the proposal to make Holland Lake Lodge a "Resort like" area.
