First name: Jill

Last name: M Spady

Organization:

Title:

Comments: As a lifelong Montanan, I am vehemently opposed to this proposed project. Montana has always been the last best place to enjoy nature, pure and unspoiled. Corporations coming from out of state who have money and the greed to make more are ruining our state. Montana is a unique place and if we don't stop this unhindered growth, it will soon join the ranks of boring, cookie-cutter places with no respect for the outdoors or the heritage we've been gifted. It's only right that my children and grandchildren, born and raised here, have the opportunity to explore the wild places that make Montana special. Please do not allow this to happen to our beloved state. Put a stop to it, now, before it's all gone.
