Title:

Comments: Once again more of our state will be taken away from us by out of staters. I can understand others wanting to build a business in Montana, it's beautiful here but our public lands need to STAY public. Locked gates and prices only for the rich should be unacceptable instead of the norm that it seems to be now. Maybe we should band together and follow the creed of the show 'Yellowstone' and all say THIS IS OUR LAND so NO!!
