First name: Janet

Last name: Sullivan

Organization:

Title:

Comments: This group that wants to exploit MT is a product of the cult Mormons from Utah. They desired to have Six children to attain a planet when they die. All that happened is that these people continue to take over land, develop it then run every one else out. As they have been doing in the west for a hundred years.

Do not allow them to redevelop this area. Instead let them develop at least 5 miles from this iconic location. It is part of the USDA law to preserve historic sites. Don't cave into the offer of money least you be sued by the people of the United States.
