First name: Tami

Last name: Much

Organization:

Title:

Comments: My family and I absolutely disagree with this purchase. Families go there for solitude and to enjoy our beautiful state, getting away from our daily hustle and bustle. To turn this into some kind of resort is taking away from our beautiful state that we love to enjoy, not to have more of our beautiful and natural places be taken away. It will also displace wildlife in whom corporations don't care about. We the people are standing up against such devastating destruction of our state.
