Comments: As a Montanan who has lived in this state my whole life, I value our untouched spaces. I am not naive to progression. But, once you allow corporate expansion into our native forests and waterways, you can never go back. This attempt at commercialization of a beautiful lake space deeply saddens me. What's next? Placid Lake? Glacier? Swan Lake? Let's save some for the middle or low income locals who were born here - who remember old Montana and it's beautiful places. Please, please, please don't allow this kind of exploitation of beautiful Holland Lake.
