Comments: Please do not destroy the simple elegance of Holland Lake. I grew up in Montana and have been to Holland Lake many times. One of the reasons I go back is to get away from the "big city" atmosphere that is in Wisconsin. Don't destroy the natural and unpolluted beauty that refreshes the weary souls of people escaping from the crowded states! If the big complex is built I will probably never go back and if I do it will be a time of mourning the lost of the beauty of the past.
