Comments: Hoping to see the area around Holland lake can be preserved! Enough of the valley is being bought out and turned into things locals wouldn't have ever dreamed of. Let's at least try and preserve these beautiful and historic gems like Holland lake. Let's prevent letting out of staters from making into something they only view as how much money they can make instead of leaving the natural beauty stand and loving and enjoying the area for its raw beauty, not turning it into something commercial.
