Comments: As a third generation Montanan, I highly reject this expansion proposal at Holland Lake. Not only will it interfere with wildlife, and the natural landscape, as it takes away from it's natural beauty, and serene setting, it will also, once again limit the visitors that are able to enjoy this beautiful, charming and quiet setting. Montanans are fed up with the large, out of state corporations coming in and exploiting and selling out Montana to the highest bidder, and we are losing our state, as it becomes something else entirely and the very thing people are wanting to escape from. It is your duty to act on behalf of all Montanans and listen to our opinion as to what is allowed in our state. I trust that you will listen and deny this project!
