Comments: I find it very frustrating that more and more of our public lands are being used, and/or sold, to people and corporations who do not care in the slightest what happens to the land. I also find it extremely disrespectful that out of stater companies, and people, come here and are changing everything to fit them. I do not agree with this project in the slightest, and would appreciate it greatly if just for once we did not allow something like this to happen again. Rich people can go all over the world on a whim, why do they feel the need to ruin perfectly good natural forest?
