Comments: To whom it may concern,

I am totally against granting permission for this project. It will have a devastating negative effect on the Swan valley's environment. Wildlife will suffer, the infrastructure is not sufficient to handle the people it will draw. All the locals will suffer tremendously. Take a hard look at the Big Sky resort and it's impact on the surrounding area. Most notably the Gallatin River. Holland Lake is sandwiched between the Bob Marshall & Mission Mountain Wilderness areas. This is greed at it's highest level. Please reject this project.

Thank you - Scott Bloom
