Comments: To all this may concern,

In regards to the Holland Lake Development Issue, PLEASE DO NOT ALLOW A LARGER RESORT TO BE DEVELOPED! DO NOT, I repeat, DO NOT let Holland Lake turn into a Big Sky Resort sequel. Holland Lake, as well as the majority of Montana lakes, is a local treasure and should be preserved for the benefit of the local populace, wildlife and resources. Sure, the money coming in from the sale and the resort would be nice.....BUT the wellbeing of Holland Lake, the community around it and the wildlife would be affected negatively in the long run. Having a large resort sitting on the banks of a water mass like Holland Lake, just detracts from the lake as a whole, not to mention the influx of people to the area that may put a strain on the roads/infrastructure/aquifer in that area. If improvements are needed for the already existing buildings/facilities, find the funds to improve these. BUT DO NOT SELL AND/OR EXPAND what is already there. We have all seen what expansion and development does in Montana, and most of the time when this development is in Montana's wild places, it is not for the better.
