Title:

Comments: The Holland Lake Lodge is an amazing historical site. My family has enjoyed the beauty of this facility for generations. I strongly it should remain essentially as it is except for necessary maintenance and appropriate safety measures.

Far too much of iconic Montana culture is being wiped clean and becoming wiped clean; to be replaced with mega resorts, tasteless commercial facilities, and other structures that so degrade the natural and cultural beauty of this amazing state. Imagine giving this group free rein to the Many Glacier Hotel!

I have worked for this company and I have zero confidence in their ability or intention to treat Holland Lake (or the Swan Valley) with the reverence it deserves.

Respectfully,

Roy Loman
