Comments: This is my home away from home. The destruction of this property would break the hearts of my entire family. I have been going to Holland Lake for 4 years now. The first year I went was for my brother in laws wedding. Our cousins also got engaged at the family loved lake. My husband has been going for 25 years and we have recently started taking our daughter. It has always been a dream that she can grow up there as her father has and then eventually take her kids here and follow the tradition. When my husband found out what POWDR was planning he broke down and was so upset. Please consider how many families love the simple Montana lake. We don't need a big resort.
