Last name: Hyde

Organization:

Title:

Comments: Please do not allow the desecration and destruction of this pristine land and lake. It needs to be protected as a natural resource and left undeveloped. The influx of visitors and vehicles will bring pollution and destruction to this natural area. Gas, oil, and other auto fluids will wash into the lake. Visitors who don't respect the wild flora and fauna will litter and destroy the habitat through ignorance. The increase of visitors and their habits will be detrimental to the area. Keep Montana clean and pristine. I vehemently oppose the commercial development of this area!
