Title:

Comments: Please, please do not allow this project!! As a native Montanan, I beg of you to not let this happen, we have so little places left to go that are undiscovered by the masses of people that are coming to Montana. Allowing this type of development would be a terrible impact on our communities, infrastructure and wildlife. We love our "way of life" here in Northwest Montana and this project does not add any benefit to our area, only a burden. We don't have enough people to work the businesses that are currently here due to the outrageous price of housing. Montana is quickly becoming no longer "the last best place" because of this type of development.
