Title:

Comments: As a native Montanan, I have been enjoying the tranquility of Holland Lake for many years. I have backpacked, hiked, biked, boated, and swam around Holland Lake. I could not fathom expanding the lodge and purposefully causing more commotion in this natural area. At the very least an environmental impact statement must be conducted. I have faith the Forest Service will do it's due diligence in this matter.

Thank you,  
Jamie Pankratz
