Comments: Please Please PLEASE do not allow a private club to rape and pillage the wonderful serenity of Holland Lake. Wealthy out-of-staters will push the citizens of Montana off OUR public land and will decimate the fragile ecosystem with so much activity and so much sewage. We have all experienced how these pristine mountain areas become nothing but elitist resorts. My family has its roots in a little mining town--Aspen, CO-- that is now out of reach for anyone but the wealthiest. Even those who work the resorts can't afford to live anywhere nearby.

The highway in and out of the Holland Lake area is twisty-turny, and a nightmare especially in winter. It simply cannot accommodate the amount of traffic such a huge resort would engender. The safety of our Montana drivers, and especially our kids, would be further imperiled. My daughter almost had a head on collision as a young driver, when a tourist with out of state plates came around a blind corner and almost caused a head on collision. My young driver ended up flipping her car due to gravel in the barrow pit when she dodged to avoid being hit head on in her own lane. Double the traffic and this will happen more and more.

Please do not allow this kind of expansion on public land.
