Comments: What bothers me as much as this harebrained expansion of Holland Lake Lodge which will, if allowed to proceed, ruin forever Holland Lake is the fact that a U.S. government agency would let such a destructive action get this far. I hope and pray that legal action is being formed to get an injunction to stop this development if the Forest Service does not submit it to EIS review. We must protect and preserve the "Holland Lake Experience" which has changed little over many decades. I enjoy the same experience at the lake today as I did 40 years ago when I first discovered the lake and falls. Please do not let a "for-profit" corporation ruin one of the unheralded recreational gems of Montana. Holland Lake Lodge should remain forever a mom and pop resort.
