Title:

Comments: Please allow this to serve as my written objection to the proposed land use at Holland Lake, Montana. I cannot understand why the National Forest Service would allow a "for profit" organization, from out of state, to come in and change our landscape. This is completely unacceptable.

What about environmental studies? Why isn't this being done? Why can't we keep a piece of Montana the way it is?

If you're considering the public's opinion, consider that I adamantly object!
