First name: Hailee

Last name: Barnes

Organization:

Title:

Comments: Please do not allow another corporation to come onto our Forrest service land and use loopholes to cause extreme environmental impacts that we will have to live with and recover from for generations. There is simply no reason to not do the people, land and wildlife the due diligence of doing an environmental impact study and thoughtful planning about this project. We should be represented and protected from corporate interests by the regulations and protections in place with the Forrest service. Please do this important work and don't allow money and corporate interests compromise the environment and public interest.
