Comments: I complete oppose any expansion and destruction of the current facilities and area encompassing Holland Lake Lodge. This is just another out of state take over and will ruin the landscape and the local setting that's been at this location forever. Why do we constantly have to have bigger and better all the time, it just ruins it. We all know what their bottom line is, and that is to run locals away and bring in out of state \$\$\$\$. This is an overbearing step to something that should be handled locally and within the resources there. It appears that Wohlfeil mismanaged the resort and didn't do the necessary caretaking that is needed, and now wants a bailout and a retirement fund. I strongly oppose this project.

Thanks,
