Comments: This proposed development just breaks my heart. Holland Lake is a gem in western Montana. The rustic lodge, the great camping, beautiful water and great day access beach are great just as they are. To remove the majority of the current lodge buildings and build new huge buildings and the infrastructure changes would forever alter this near perfect place. Flathead, Seeley, Swan, Whitefish, etc are already so built up with cabins and are always crowded. Please don't let this happen to one of our last best places.
