Comments: This proposed project will dramatically alter an iconic and beloved Montana destination in the Seeley Swan valley. Although we do not live close by, we have vacationed there multiple times and have a cabin on one of the lakes in the valley. What they propose will ruin the Holland Lake resort and create problems and discord in the valley. I am amazed at the owner's ignorance of the culture of the Seeley Swan valley. I encourage you to listen to the valley residents concerns and to carefully assess the impact of the proposed changes on the environment and to the families who value the historic lodge and who are appalled at the proposed changes.
