Comments: Montana is a sacred place that should be kept to the locals only. Bringing out-of-staters to build whatever they want and ruin such a beautiful place is completely illogical and negligent. Our LAST BEST PLACE needs to stay how it is and the local Montanans should bring what we need. There have already been so many reasons why tourists need to be kept away (i.e. Glacier NP and surrounding regions, deaths by buffalo in Yellowstone NP, "Boze-angeles," price of houses and so many other things locals are not pleased with). Leave Montana alone.
