Comments: I oppose the development. The lodge itself should be considered a historic building that should only allow for the improvements on the existing structure. We have visited the lodge and dining for years. It allure is due to the rustic beauty of the place. If the proposed upgrades are allowed you will only cater to the wealthy who can pay exorbitant amounts to enjoy it. This seems to only benefit the good of the few over the good of the whole. We need to fight to keep our history because once it is gone it is gone for good.
