Comments: Holland Lake is a gem. I strongly believe that this project will jeopardize the area, trample It's ecosystem and ruin it's backcountry feel. This project will significantly increase recreational use on the lake and in near by areas. This level of expansion will make Holland lake more of a destination than it already is and will ruin surrounding areas. There is no reason to allow this kind of growth and increased traffic that is already pushing Montana's wilderness areas into over used destinations. I strongly oppose any future expansion of the current Holland lake resort area. Please protect our resources!
