First name: Linda

Last name: Crofts

Organization:

Title:

Comments: I speak as a concerned Montana citizen (life-long) that the proposed project has far-reaching consequences on the environment, wildlife management, and general historic and recreational history of the greater Seeley-Swan eco-center. I am shocked that the Forest Service would consider this project consistent with any of its ideals or management principles. Please don't allow development of this magnitude to take place at Holland Lake.
