Title:

Comments: I am a 2nd generation from the camping side at Holland Lake. My mother and father brought me up every year growing up as a child. I have continued this tradition with my wife and two children. Every year, for the past 60 years my family and I have spent a minimum of one week stays. Since 2000, we have been staying extended for 2 weeks now. Along with other extended family members, we always come to Holland Lake because of the remoteness and quietness of the lake. I STRONGLY OPPOSE this proposal for the Mega Resort.
