Title:

Comments: I urge those with the power to decide on this to stop this project. Exploitative use of nature is wrong. Save the historic nature of this property. Respect nature. Do not allow a monstrosity to be built. People who appreciate nature, appreciate scale, proportion and the art of recognizing what a sacred space nature is. None of what is being planned by the new owners comes close to recognizing sacred space and historic values. Do not let this go forward.

Thanks for your consideration.
