Comments: Please do not allow this proposed redevelopment of Holland Lake. It is has been a gem for Montana families for many, many decades including my own. Sadly, I no longer live in Montana, but I have so many memories of family vacations at the lake. My sister and I were just talking about it a month ago because staying at Holland Lake is an iconic Montana experience and affordable for a family of four. It should remain an accessible, affordable place for families who can't afford resort vacations. Montana does not need more massive resorts. Have you seen Big Sky lately? Have you read the news about Sun Valley? The promise of out of town dollars is not worth losing Montana's character, affordability and history.
